

INDIAN JOURNAL
OF
THEORETICAL PHYSICS

Founder Director : Late Prof. K. C. Kar, D. Sc.

VOLUME 24

1976

Published by the
INSTITUTE OF THEORETICAL PHYSICS
BIGNAM KUTIR, CALCUTTA-700004

BOARD OF EDITORS

M. Ghosh	S. D. Chatterjee	A. Roy Chowdhury
S. Sen Gupta	P. P. Chattarji	(Mrs.) C. Dutta
A. N. Basu	D. K. Sinha	J. Biswas
	A. K. Bhattacharyya	

NOTICE TO CONTRIBUTORS

1. The manuscript of each paper for publication in this journal should be typed on one side of the paper and should be accompanied by a short abstract. Two copies of each paper should be submitted.
2. All the references to the published papers should be numbered serially and given at the end of the paper.
3. Diagram should be drawn on thick white paper in Indian ink. Tables should be typed on separate sheets.
4. The papers to be published in the journal should be original on theoretical physics or on experimental physics with theoretical background.
5. Avoid mathematical steps as far as possible. All mathematical expressions, should be typed as far as possible, with unavailable symbols inserted neatly in ink. Be sure to distinguish between capital and small letters. Avoid complicated superscripts and subscripts. Avoid repetition of a complicated expression by representing it by a symbol.
6. Letters to the Editor, Review articles and Booklets on recent topics will also be published.
7. Fifty copies of reprints of each paper, except review articles and booklets are given free of cost to the contributor.

All communications to the Secretary, Institute of Theoretical Physics, Bignan Kutir, 4/1, Mohan Bagan Lane, Calcutta-700004.

Subscription Rates (net)

Per volume Rs. 40'00 (Inland)	Per volume \$ 10'00 (Foreign)
„ Rs. 80'00 (Foreign)	„ £ 5'00 „

Back Volume Rates (net)

*Back volumes at Rs. 120'00 or Equivalent Dollars
or Pounds per volume*

Indian Journal of Theoretical Physics is published quarterly in March, June, September and December.

VOLUME 24

CONTENTS

March

	Page
On the binding energy of triton — <i>M. Dhara</i>	1
Transverse oscillation of a viscoelastic bar due to an impulsive load acting at its middle point — <i>Madan Mohan Garai</i>	7
A note on propagation of disturbances in a piezo- electric medium under the influence of an external electron stream — <i>Miss Samita Basu</i>	13
Instabilities in double phase flow through dipping porous medium with capillary pressure — <i>S. K. Mishra</i>	23
Magneto-thermo-elastic disturbances in a semi- infinite bar of variable cross-section and of variable magnetic permeability — <i>N. G. Mookerjee</i>	31

June

On the propagation of space charge waves in an accelerated electron beam — <i>D. C. Agarwal</i>	41
Variational approach to the scattering of slow electrons by polar molecules — <i>M. P. Maru and H. S. Desai</i>	49
Dynamics of the vibration of a built-in bar excited by transverse impact by an elastic load — <i>K. D. Ray and R. K. Chatterjee</i>	53

Transient temperature distribution in a non-homogeneous solid cube	— <i>K. D. Sharma</i>	63
Radial and rotatory vibrations of a transversely isotropic non-homogeneous thin annular disk with varying elastic parameters	— <i>Mrs. Manju Pan</i>	67
Letter to the Editor : Nonexistence measurment and its relationship to time and motion	— <i>John Di Prete</i>	77

September

The non-steady three dimensional flow in the boundary layer on a body executing simple harmonic motion	— <i>R. Askovic</i>	81
Mechanical response of a non-uniform pre-energised semi conductor transducer subjected to a body force and loaded with a delay rod	— <i>N. C. Ghosh</i>	91
Forced torsional vibration of a cone with spherical caps twisted by periodic terminal couples	— <i>A. Mukhopadhyay</i>	97
On the analysis of lens like media using variational method	— <i>D. C. Agarwal</i>	103
Review : Model potentials for ionic crystals	— <i>A. K. Sarkar and S. Sengupta</i>	107
Book Review		159

December

	<i>Page</i>
Temperature variation of the electrical resistivity of lithium, potassium and rubidium	
— <i>O. P. Gupta</i>	161
On the linearized Boltzmann's equation for semiconductor plasmas	
— <i>D. C. Agarwal</i>	175
Note on the transverse vibration of an isotropic circular plate with density varying parabolically	
— <i>Mrs. Manju Pan</i>	179
Behaviour of a Bingham fluid in the entry region of a pipe	
— <i>P. N. Tandon and M. D. Raisinghania</i>	183
Thermal stresses in an infinite elastic medium containing an external crack	
— <i>S. N. Maiti</i>	197
